**Server Proficiency:** Ubuntu, Nginx, PM2, Windows Server, IIS.

**Version Control Proficiency:** Git, Github, Bitbucket.

## EDUCATION

---

**Cao Thang Technical College**

**Aug 2016 - Aug 2019**

## EXPERIENCE - 1 YEAR

---

**Bacoor Vietnam. - Jr Developer**

**Aug 2019 - Present**

**API for HB WALLET**

- Implemented API storing images and serving images from base64 string.
- Crawled the information of public user from URL (Instagram and Pinterest) for creating cards.

**API for Nagemon Website**

- API improvement performance: using group and aggregate instead of the loop query (improved from 2s to 0.2s).

**API for Pantograph Website**

- Implemented new API and updated available API.

**Admin Listing Crypto Trading Website**

- Implemented API for listing crypto trading of partners. (NodeJS, Mongoose).
- Implemented screens for listing crypto trading of partners (ReactJS, Redux).
- Refactored react router structure to make the dynamic authorization depending on specific screens.

**Nagemon website**

- UI performance improvement: improved 15s to 0.5s by implementing putting functions outside the loop and pre-called API stored in map structure with keys.
- Supported fixing CSS bugs of Nagemon's UI.

**Sending Multiple Tokens Website**

- Implemented login metamask and functions calling web3 methods to sending multiple tokens from CSV file.

### Tomorrow Price Website

- Implemented some Tomorrow Price's UI from figma designs.

## ACHIEVEMENTS

---

### 1st Place IT Olympic Vietnam 2018 - College Group

- Solved 3/3 problems (algorithm challenges) (85/100 points)

## COURSES

---

- Harvard CS50
- MIT missing semester 2020
- Complete React Developer in 2019
- Node.js API Masterclass

## PROJECTS

---

### Scout Volunteer Website Feb 2020

- Installed nginx, node on Ubuntu and deployed website.

### Hoomee Website Nov 2019

- Convert AI to HTML/CSS

### Moving 3 website from hosting to windows server July 2019

- Implemented and configured Windows Server 2016 (IIS web server, SQL server, SSL full cloudflare certificate) to serve three ASP.net websites.
